Brain Injury Summit

Uncovering Brain Injury's Hidden Issues

Friday, March 3, 2017

**Baptist Health Louisville
 4000 Kresge Way
 Louisville, KY 40207**

Course Description

The 2017 BIAK Brain Injury Summit will provide attendees with the most current, evidence-based information that will equip them to be effective providers of services to persons with an acquired brain injury. These courses will teach current best practices and will be taught by experts in their respective area of study. Each course is designed to equip the professional and help them to: effectively address changes to the ABI Medicaid Waivers; enable survivors to build healthy personal relationships; manage the challenges of aging for a person with a brain injury; comprehend how vision therapy can assist in effective neuro-rehabilitation; assist civilians to work effectively with Veterans who acquired a brain injury in combat; and understanding and addressing challenging behaviors. Those who attend this Summit will be able to...

- Describe the changes to the ABI Medicaid Waiver Programs and list ways to adjust their business to accommodate those changes;
- Identify strategies that enable persons with a brain injury to develop a healthy understanding of sexuality and to develop appropriate personal relationship skills;
- Apply creative methods in successfully helping a person cope with challenging behaviors.
- Summarize the challenges and resources needed to effectively address issues related to brain injury and aging;
- Identify skills and strategies to effectively assist a Veteran with an acquired brain injury; and
- Determine when vision therapy will be an effective treatment method as a part of brain injury.
